

## SIEFA Admin Installation Guide (For Windows 10 or above)

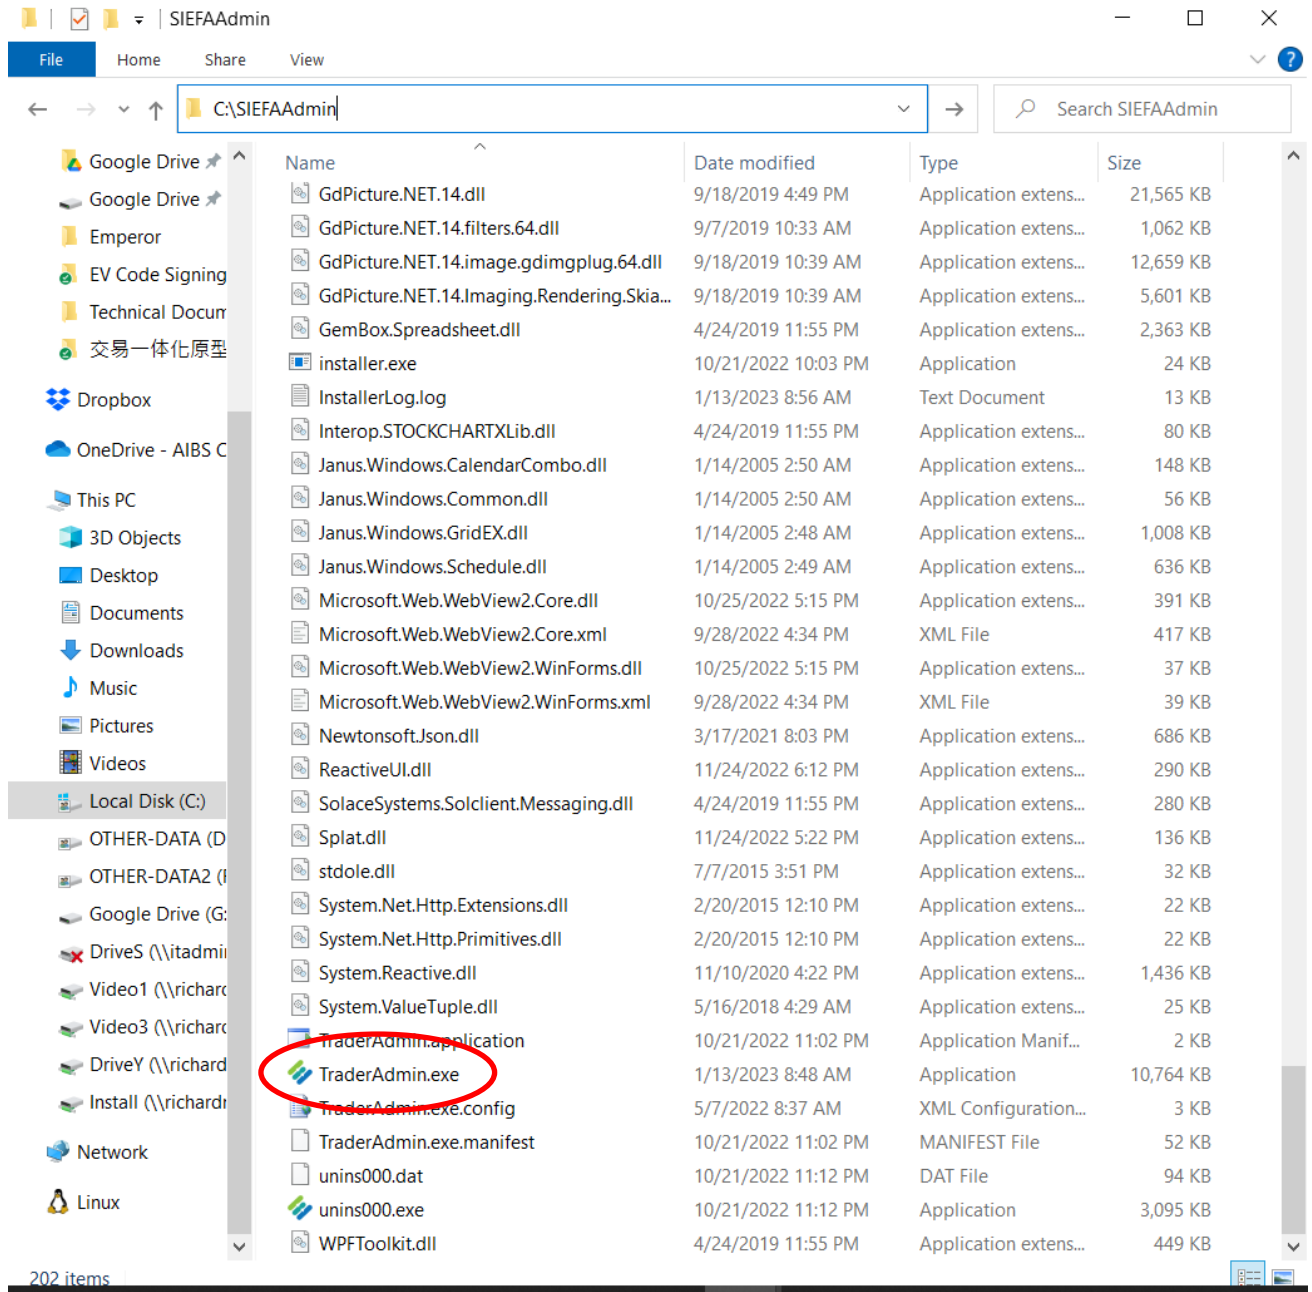

- 1) Open browser, go to <https://www.fullnode.com.hk> and click “Download 下載” in top-right corner.

- 2) Click the link “SIEFA Admin (Zip version 免安裝壓縮版)” to download the file “SIEFAAdminSetup.zip”.

- 3) Create a directory inside your local harddisk (e.g. C:\SIEFAAdmin) which you have both read/write access and unzip the downloaded file into this directory.
- 4) After install, double click to run “TraderAdmin.exe” in the directory to start the application.

- 5) Choose “Add Server 新增服務器...” and input server code in the server field as below

- 6) Input "User Code" and "User Password" and then click "Login" Button
- 7) If you are required to run HTML5 price quote screen from other 3<sup>rd</sup> party data vendors (such as ETNet, Megahub, TSCI), it is required to install "Microsoft Edge WebView2" component. Please download and install it from <https://go.microsoft.com/fwlink/p/?LinkId=2124703> or click "Microsoft Edge WebView2" link to install under "Download 下載" in <https://www.fullnode.com.hk>.

The screenshot shows a web browser window displaying the 'Download 下載' page of FullNode Technology. The page is organized into three main sections:

- For Client Use 客戶專用**
  - SIEFA Trader (Installer version 安裝版) - Installation Guide 安裝手冊
  - SIEFA Trader (Zip version 免安裝壓縮版) - Installation Guide 安裝手冊
- For Broker Firm Internal Staff Use 券商內部員工專用**
  - SIEFA Admin (Installer version 安裝版) - Installation Guide 安裝手冊
  - SIEFA Admin (Zip version 免安裝壓縮版) - Installation Guide 安裝手冊
- For Access of External Price Quote 使用外部行情報價**
  - Microsoft Edge WebView2

The 'Microsoft Edge WebView2' link is highlighted with a red circle.
